I have a Kodi box hooked up to my television. I also have a Logitech Harmony MX500 sitting in my living room. My TV is on channel 5, and the MX500 is on channel 2. Since my TV is in my living room, channel 5 is ~60 ft away from the MX500. I have the MX500 plugged into a powered speaker. I would like to be able to control the audio from my Kodi box using my MX500. Can I do this? How? A: Yes, you can! Your MX500 has a "one touch" button on it that connects it to your network. You would need to do the following: Setup the MX500 to wirelessly connect to the network Setup the Logitech Harmony app to connect to the MX500 Setup your Logitech Harmony account to save your settings When you press that button, the Harmony app will ask you to setup the Harmony account, this will allow you to access your other devices. Once it is all setup, Harmony will be able to run through a range of commands and items, be it from TV, Media Center, or whatever you want to control.
