Rise Up as a Tarnished Deed A long time ago, there was one who loved the underground and the wild, and ventured deep into the realm of darkness to find life and relieve suffering in the troubled world. During his trek, the hero found a town that had been destroyed by monsters. Against his better judgment, he decided to abandon the town and enter an endless dungeon to find the source of the evil. There, in a vast dungeon, he finally found the source of the world's problems, but as he gazed into it, he saw "a swirl of jagged lightning" and, upon closer examination, he found that the monsters inside were his own reflection. He traveled back to the town and returned it to its former glory, fulfilling his mission as a Tarnished Deed. But even in this world, there is no place that is perfect. The hero's success would bring a light to the townsfolk, but a butterfly's wings are no match for a hurricane, and there was a slight breeze in the wafting of the light. Amidst the swirled sorrows of the troubled world, he began to give rise to the heroic hero of the next generation. And so, the hero who was revealed to be the Tarnished Deed, with the evil that he opposed, would come to bear the burden of the hero who was yet to be born. In the vibrant and tumultuous Lands Between, he sought to instill in his descendant the same spirit of purity and justice, but because of his selfish desires, the hero, who could not be born, was forced to take on his burden alone. From that moment on, the hero who was yet to be born was called the "Elden Lord." The Rivals The world has changed greatly since then. In recent years, the Lands Between, which have been lying dormant for hundreds of years, have begun to awaken. For the time being, the humans are the only species in the Lands Between, but the Elden Lords are preparing for the arrival of other creatures. A large country called Van, which was carved up into smaller countries by the invasion of a demon, has fallen into a dreadful state. Meanwhile, the country of Grima, who was once the foe of the Elden Lords and the direct land of the Elden Lords, has also succumbed to this uneasy atmosphere. Not far from them, rumors of a giant dragon have begun to circulate, and all the

Q: Should I upvote downvoted answers? I've read a lot of other questions about this, but this question: Should I upvote answers that have been downvoted? just doesn't make sense to me. I have to admit, I sometimes do. But usually, I either just skip through them, or, more frequently, if I see something I think should be upvoted, I take the time to check it out to see if it's really up to par. Does this make me a hypocrite? A: I actually disagree with @L-H-S's first statement: "If you don't like the way something was done, then you should post your answer yourself." This is only if you have an equal amount of information and experience. Stack Overflow is not an AMA and asking questions here is not an invitation to "give me the answer for free" - if we require people to improve their answer instead, it makes sense that we can adjust our own to allow for such. I personally will only modify another user's answer if they've made a mistake. However, if they've done a poor job on their own and I have the information to do a better job, then I will. This is more a courtesy to the user than anything. text/microsoft-resx 2.0 System.Resources.ResXResourceReader, System.Windows
