would like to map Warcraft 3. For my i search a program or script
(programmer made)... that can make the following things: 1.) 1: Go to
a specific address in the RAM, to read the characters of the map and
see if a order for an obelisk is placed 2.) 2: Place all characters with
"AL I AL r" on the screen, and then (by a... Please help my with this as
I have been stuck on it for hours. I am trying to use c# (visual studio
2012) to make a dot net application that will open a game on a
network and save that game. Right now I just want to be able to try
and use. I am having real trouble getting the server to be able to
connect to the client. I have hard coded the IP address and port in... I
like to protect my game in a real container (which is visible and is not
a simple fortress) and I would like that one of the players of my game
be blocked if he becomes too strong or too "evil". This needs to be a
dynamic management because it can happen that a player become
stronger and stronger and I really don't want to block him
permanently. To block... I recently installed photoshop cs2, and I want
to use it to modify a game I made in vanilla wow. The game is called
"Dark Harvest" and I have made two screenshots of it. First one just
contains a screenshot of the entire game.
